Fireweed Zinc Begins Work on Macmillan Pass Zinc Project and Launches New Website

Vancouver, British Columbia: FIREWEED ZINC LTD. (“Fireweed” or the “Company”) (TSXV: FWZ) is pleased to announce that work has begun on the Macmillan Pass Project and the Company has launched its new website at www.FireweedZinc.com.

Macmillan Pass Project

Work has begun on the Macmillan Pass zinc-lead-silver project. Plans are to complete a minimum \$1.2 million exploration program on the project in 2017 with the aim of bringing the historical resources on both the Tom and Jason zinc-lead-silver deposits to current standards as well as explore for new discoveries within the project area (see Fireweed news release dated June 1, 2017 for details of the historic mineral resources). This work will include re-sampling of some historical drill core (now in progress), surveying of drill hole locations and additional drilling (to begin soon) to both verify and expand the historic resources. Following completion of an updated NI 43-101 resource estimate, Fireweed plans to undertake a Preliminary Economic Assessment in order to evaluate project economics.

Surface exploration work is also planned to delineate possible extensions to the known historic deposits as well as explore other areas of the project for new, undiscovered, areas of mineralization using modern exploration techniques.

New Fireweed Zinc Website

Fireweed is pleased to introduce its new website at www.FireweedZinc.com. The new site has a user-friendly interface and is populated with up-to-date and detailed information on Fireweed’s Macmillan Pass Project as well as corporate and other information designed to give visitors a better understanding of the Company and its advanced zinc project.

The technical information in this news release has been reviewed and approved by Brandon Macdonald, P.Geol., a ‘Qualified Person’ as defined under Canadian National Instrument 43-101.

About Fireweed Zinc Ltd.: Fireweed Zinc is a new public mineral exploration company focused on zinc and managed by a veteran team of mining industry professionals. This summer the Company will be advancing its Macmillan Pass Zinc Project where it has an option to acquire 100% of the Tom-Jason property in Yukon, Canada. The project is host to the large, advanced Tom and Jason zinc-lead-silver deposits and surrounding exploration ground with significant exploration potential and road access.

ON BEHALF OF FIREWEED ZINC LTD.
