Notes to the Condensed Interim Financial Statements for the Six Months Ended June 30, 2019  
(Unaudited - Expressed in Canadian Dollars)

## 1. Nature and Continuance of Operations

Fireweed Zinc Ltd. (the "Company") was incorporated under the Business Corporations Act of the Yukon in Canada on October 20, 2015. The Company is a mineral exploration and development company and is engaged in the acquisition, exploration and development of mineral assets. Currently the Company has one project, the Macmillan Pass Project, which includes the Tom and Jason claims and zinc-lead-silver deposits, the Nidd claims and optioned large blocks of adjacent claims (MC, MP, Jerry, BR and NS, MAC) in Yukon, Canada (collectively, the "Project"). The Company is listed on the TSX Venture Exchange and trades under the symbol FWZ.

The Company's head office and principal address is Suite 1020 – 800 West Pender Street, Vancouver, British Columbia, Canada V6C 2V6. The registered and records office is 3081 3<sup>rd</sup> Avenue, Whitehorse, Yukon, Canada Y1A 4Z7.

The Company's ability to continue operations is not assured and is dependent upon the ability of the Company to obtain necessary financing to meet its liabilities and commitments as they become due and the ability to generate future profitable production or operations or obtain sufficient proceeds from the disposition thereof. The outcome of these matters cannot be predicted at this time. The interim financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. As at June 30, 2019, management estimates that the Company has sufficient working capital to maintain its operations and activities for the next fiscal year.

The financial statements for the six months ended June 30, 2019 have been prepared by management, reviewed by the Audit Committee and authorized for issue by the Board of Directors on August 20, 2019.

## 2. Basis of Presentation and Statement of Compliance.

These interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") for interim information, specifically International Accounting Standards ("IAS") 34 - Interim Financial Reporting. In addition, these interim financial statements have been prepared using interpretations issued by the International Financial Reporting Interpretation Committee ("IFRIC") in effect at June 30, 2019 and the same accounting policies and methods of their application as the most recent annual financial statements of the Company, except the newly adopted standards and interpretations described below (Note 3). These interim financial statements do not include all disclosures normally provided in the annual financial statements and should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2018. In management's opinion, all adjustments necessary for fair presentation have been included in these condensed interim financial statements. Interim results are not necessarily indicative of the results expected for the year ending December 31, 2019.

The financial statements have been prepared on a historical cost basis, except for financial instruments classified as fair value through profit and loss, which are stated at their fair value. All dollar amounts presented are in Canadian dollars unless otherwise specified. In addition, the financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

## 3. Significant Accounting Policies

### Critical accounting judgments, estimates and assumptions

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amount of expenses during the reporting period. Actual outcomes could differ from these estimates. These financial statements include estimates that, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods.

## 3. Significant Accounting Policies (cont'd...)

### **Critical accounting judgments, estimates and assumptions (cont'd...)**

These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Information about significant areas of estimation uncertainty in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are noted below with further details of the assumptions contained in the relevant note.

#### ***Critical accounting judgment***

The preparation of these financial statements requires management to make judgments regarding the going concern of the Company as discussed in Note 1.

#### ***Key sources of estimation uncertainty***

##### Exploration and evaluation assets

Exploration and evaluation costs are initially capitalized as intangible exploration assets with the intent to establish commercially viable reserves. The Company is required to make estimates and judgments about the future events and circumstances regarding whether the carrying amount of intangible exploration assets exceeds its recoverable amount.

Recoverability is dependent on various factors, including the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development and upon future profitable production or proceeds from the disposition of the exploration and evaluation assets themselves. Additionally, there are numerous geological, economic, environmental and regulatory factors and uncertainties that could impact management's assessment as to the overall viability of its properties or the ability to generate future cash flows necessary to cover or exceed the carrying value of the Company's exploration and evaluation assets.

##### Deferred tax assets and liabilities

The measurement of a deferred tax provision is subject to uncertainty associated with the timing of future events and changes in legislation, tax rates and interpretations by tax authorities. The estimation of taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income, which in turn is dependent upon the successful discovery, extraction, development and commercialization of mineral reserves. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets, and future tax provisions or recoveries could be affected.

##### Share-based compensation

Share-based compensation expense is measured by reference to the fair value of the stock options at the date at which they are granted. Estimating fair value for granted stock options requires determining the most appropriate valuation model which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the option, volatility, dividend yield, and rate of forfeitures and making assumptions about them. The value of the share-based compensation expense for the period ended June 30, 2019 are disclosed in Note 9.

## 3. Significant Accounting Policies (cont'd...)

### New and revised standards and interpretations

The accounting policies in preparation of these condensed interim financial statements are consistent with those applied and disclosed in the Company's audited financial statements for the year ended December 31, 2018, except for the adoption, on January 1, 2019, of **IFRS 16, Leases** and **IFRIC 23, Uncertainty over Income Tax Treatments** which has an initial application as at this date.

The newly adopted IFRS 16, Leases standard establishes principles for recognition, measurement, presentation and disclosure of leases with an impact on lessee accounting, effective for annual periods beginning on or after January 1, 2019. The Company has assessed its office lease agreement and concluded that the agreement does not constitute the ability to direct the use (right to use) of the underlying office premises in the context of IFRS 16. As such, the adoption of the above standard has not had an impact on the results and financial position of the Company.

The newly adopted IFRIC 23, Uncertainty over Income Tax Treatments clarifies the accounting for uncertainties in income taxes. The interpretation provides guidance and clarifies the application of the recognition and measurement criteria in IAS 12 "Income Taxes" when there is uncertainty over income tax treatments. The adoption of IFRIC 23 has not had an impact on the financial statements of the Company.

## 4. Exploration and Evaluation Assets (cont'd...)

### Macmillan Pass Project, Yukon, Canada

#### *Option Agreement with Hudbay*

On December 14, 2016, the Company entered into a two-year option agreement with Hudbay Minerals Inc. ("Hudbay") whereby the Company could acquire a 100% interest in the Tom Jason zinc-lead-silver property.

During the year ended December 31, 2018, the Company incurred the required exploration expenditures of \$1,250,000 under the option agreement and, accordingly, exercised its option by paying a total of \$1,000,000 cash and issuing 3,565,406 shares to acquire a 100% interest in the Tom Jason property.

Upon exercise of the option, the Company assumed a pre-existing 3% net smelter royalty ("NSR") on the Jason claims to third parties but has the right to purchase at any time – 1.5% of the NSR for \$1,250,000 and the remaining 1.5% NSR for \$4,000,000.

#### *Option Agreement with Newmont/Maverix*

On July 24, 2017, the Company entered into an option agreement with Newmont Canada Holdings, ULC ("Newmont"), whereby the Company can acquire a 100% interest in the MAC claims located on the northwest extension of the Company's Tom Jason claims by paying \$450,000 in staged cash payments over four years (see summary of payments in the schedule below), maintaining the MAC claims in good standing (minimum cost of \$82,000 per year), and granting Newmont a 0.25% NSR on base metals, 1% NSR, on silver and 3% NSR on gold. Newmont will also have an exclusive but limited 30 days right of first offer on any future proposed sale, transfer or disposition by the Company of its interest in the MAC claims. The MAC claims are considered part of the MacMillan Pass project cash generating unit. On June 29, 2018 Newmont sold the MAC claims option agreement to Maverix Metals Inc. ("Maverix") as part of a larger transaction and as such the new registered owner and optionor of the MAC claims is now Maverix.

#### *Option Payment Summary to Newmont/Maverix:*

<b>Due Date</b>	<b>Amount</b>
July 24, 2017 (signing of the option)	\$50,000 (paid)
July 24, 2018 (first anniversary)	\$80,000 (paid)
July 24, 2019 (second anniversary)	\$95,000*
July 24, 2020 (third anniversary)	\$110,000
July 24, 2021 (fourth anniversary)	\$115,000
<b>TOTAL</b>	<b>\$450,000</b>

\*Subsequent to the period ended June 30, 2019, the Company has entered into an amending agreement with Maverix modifying the second anniversary payment clause to \$50,000 in cash and 95,000 common shares of Fireweed. A cash payment of \$50,000 was made in July 2019 and 95,000 shares issued in August 2019.

The Company may prepay any of the option payments and/or prepay the entire purchase price at any time.

#### *Option Agreement with Constantine Metal Resources Ltd. and Carlin Gold Corporation*

In April 2018, the Company entered into a mineral property option agreement with Constantine Metal Resources Ltd. ("Constantine") and Carlin Gold Corporation ("Carlin") to purchase the MC, MP and Jerry Claims. The terms of the agreement whereby the Company will have the right to earn a 100% interest in the MC, MP, and Jerry claims (the "Constantine-Carlin claims") are summarized below

<b>Due Date</b>	<b>Cash</b>	<b>Common shares</b>
Exchange approval of the option agreement (May 9, 2018)	\$75,000 (paid)	50,000 (issued)
On or before May 9, 2019	\$125,000 (paid)	50,000 (issued)

### 4. Exploration and Evaluation Assets (cont'd...)

#### Macmillan Pass Project, Yukon, Canada (cont'd...)

The Company may prepay any of the option payments and/or prepay the entire purchase price at any time.

Although not part of the consideration payable to exercise the option, the Company will pay an additional \$750,000 in cash or equivalent in shares, upon receiving a resource calculation of at least 2.0 million tonnes of indicated (or better) resource on any part of the Constantine-Carlin claims. Constantine and Carlin will retain the right to receive a NSR on any future mine production from the Constantine-Carlin claims as follows: 0.5% NSR on base metals and silver and 2% NSR on all other metals including gold. The Company maintains a right of first refusal on the sale of any NSR royalty from these claims by Constantine and/or Carlin.

#### *Option Agreement with Golden Ridge Resources Ltd.*

In April 2018, the Company entered into a mineral property option agreement with Golden Ridge Resources Ltd. ("Golden Ridge") extending the Company's Macmillan Pass Project land position.

This option allows the Company to acquire a 100% interest in a number of quartz claim tenures from Golden Ridge ("BR and NS claims"). As per the initial agreement, the Company can exercise the option and acquire a 100% interest in these claims by making payments totaling \$500,000 and issuing 450,000 shares over three years to Golden Ridge.

During the period ended June 30, 2019 the Company signed an amending agreement, the terms of which are reflected in the schedule below. The cash payment of \$37,500 was made and 121,875 shares issued in May 2019 representing a second installment towards 100% interest in BR and NS claims.

<b>Due Date</b>	<b>Cash</b>	<b>Common shares</b>
Exchange approval of the option agreement (May 9, 2018)	\$75,000 (paid)	75,000 (issued)
On or before May 9, 2019	\$37,500 (paid)	121,875 (issued)
On or before May 9, 2020	\$150,000	100,000
On or before May 9, 2021	\$200,000	200,000
<b>TOTAL</b>	<b>\$462,500</b>	<b>496,875</b>

The Company may prepay any of the option payments and/or prepay the entire purchase price at any time.

Although not part of the consideration payable to exercise the option, the Company will pay an additional \$750,000 in cash or equivalent in shares, to Golden Ridge, upon receiving a resource calculation of at least 2.0 million tonnes of indicated (or better) resource on any part of the BR and NS claims.

Golden Ridge will retain the right to receive NSR royalties on any future mine production from the BR and NS claims as follows: 0.5% NSR on base metals and silver and 2% NSR on all other metals, including gold. There is also a third party 3% NSR on any future cobalt production from the BR and NS claims. The Company will have the right to purchase one-half of these NSR royalties (excluding the cobalt royalty) for \$2,000,000 at any time prior to the commencement of commercial production. The Company maintains a right of first refusal on the sale of any NSR royalty from the BR and NS claims by Golden Ridge.

#### *Acquisition of Nidd Property*

On November 2, 2018, the Company entered into a purchase and sale agreement with Teck Metals Ltd. and Teck Mining Worldwide Holdings Ltd. ("Teck"). to acquire the right, title and interest in and to the Nidd property on the western extension of the Macmillan Pass Zinc Project in Yukon.

### 12. Capital management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of exploration and evaluation assets. In the management of capital, the Company includes components of shareholders' equity. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent on external financing to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company may continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has or feels it can raise adequate financial resources to do so. The Company is not subject to any externally imposed capital requirements and there were no changes to management's approach to capital manager during the period ended June 30, 2019.

### 13. Financial Instruments and Risk Management

#### *Fair Value*

The Company has classified its financial instruments as follows:

Financial instrument	IFRS 9 Classification
Cash	Fair value through profit and loss
Receivables	Financial asset measured at amortized cost
Reclamation bond	Financial asset measured at amortized cost
Accounts payable and accrued liabilities	Financial asset measured at amortized cost

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly;  
and
- Level 3 – Inputs that are not based on observable market data.

The fair value of the Company's receivables, reclamation bond and accounts payable and accrued liabilities approximate carrying value, which is the amount recorded on the statements of financial position. The fair value of the Company's other financial instruments, cash, under the fair value hierarchy are based on level 1 quoted prices in active markets for identical assets and liabilities.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

#### *Credit risk*

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. Receivables of \$53,496 consist of Goods and Services Tax ("GST") recoverable from the Federal Government of Canada. The Company believes its exposure to credit risk is equal to the carrying value of this balance. The Company has exposure to credit risk with respect to its cash as it places most of its cash in one financial institution in Canada. The Company believes its exposure is limited as it banks with a large Canadian institution.

(Unaudited - Expressed in Canadian Dollars)

## 13. Financial Instruments and Risk Management (cont'd...)

### *Liquidity risk*

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2019, the Company had a cash balance of \$4,487,257 to settle current liabilities of \$494,131. The Company believes it has sufficient funds to meet its current liabilities as they become due.

The Company is dependent on obtaining regular financings in order to continue as a going concern. Despite previous success in acquiring these financings, there is no guarantee of obtaining future financings.

### *Interest rate risk*

The interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As at June 30, 2019, the Company is not exposed to significant interest rate risk.

### *Price risk*

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on profit or loss and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of resources, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

### *Foreign currency risk*

The Company operates predominately in Canada and is not exposed to any significant foreign currency risk

## 14. Commitment

On December 19, 2016, the Company granted but did not issue, 1,000,000 performance shares to each of four founders/directors for a total of 4,000,000 shares, in recognition of services to date and as incentive for continuing services in advancing the project and increasing shareholder value. Each founder/director will receive, upon request, the following performance shares upon achievement of the following milestones:

<b>Number of shares to be issued</b>	<b>Milestone</b>
300,000	Preparation of a positive preliminary economic assessment of the Tom and Jason zinc-lead-silver deposits (or any part of this property thereof).
300,000	Increasing the mineral resources contained within the Tom and Jason property by at least 50% over the current stated mineral resources as stated in the 2007 Technical Report by D. Rennie (either by additional tonnage or increased total zinc+lead+silver content at similar or higher grade).
Balance <sup>(1)</sup>	Preparation of a positive Pre-Feasibility Study of the Tom and Jason deposits (or any part thereof).
Balance <sup>(1)</sup>	The effective disposition of greater than 50% of the Tom and Jason deposits or of the Company, whether by way of sale, business combination, joint venture or other similar form of transaction, demonstrating a value of at least \$10,000,000.

<sup>(1)</sup> Balance of the 1,000,000 performance shares which have not been previously issued will be issued upon the achievement of either one or the other of these two milestones.
